MAYOR'S FOREWORD

Service Delivery Budget and Implementation Plan (SDBP) is a one year implementation tool which gives effect to the IDP and budget of the municipality. It serves as a yardstick to detect early warning signs of non-performance. As this council together with the administration we are determined to deliver basic services efficiently and effectively to the communities that we are serving. As mandated by the Municipal Finance Management Act No. 56 of 2003 that we must provide general political guidance over the budget process and the priorities that must guide the preparation of a budget, Co-ordinate the annual revision of the integrated development plan (IDP) as quoted in section 34 of the Municipal Systems Act and the preparation of the annual budget, and determine how the integrated development is to be taken into account or revised for the purposes of the budget; and then take all reasonable steps to ensure that the municipality approves its annual budget before the start of the budget year; also ensure that the municipality's service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget; as a council of this municipality we ensured that the IDP, budget and the SDBIP are tabled and approved. We are looking forward to the success of the implementation of these strategic documents as we are about to begin the new financial year of 2019/2020. This SDBIP will be used to align the budget to the IDP. Harry Gwala DM views a Service Delivery Budget and Implementation Plan as a contract not just between council and administration but also with its communities. And as such we are committed in delivering high quality and uninterrupted services to the general public.

This council together with its administration assisted by the general public commits itself in delivering quality basic services. We remain committed to account to our communities and to report challenges and progress at all times. We dare not accept average and mediocrity in our quest to giving out our best. Working together with other spheres of government, Harry Gwala DM assures its communities constant continuity in service delivery. To improve service delivery to our communities, we have incorporated the Back to Basics indicators in our 2019/2020 SDBIP. In his speech when the Back to Basics was launched for the first time in 2014, the president said: "Out of this Summit must emerge a focused action plan to strengthen local government by getting the basics right, and local government, together with other spheres of government, must provide basic services efficiently and effectively and in a caring manner".

In explaining the essence of the back to basics the then Minister of COGTA presented the five pillars of back to basics as follows:

- a) "Put people first and their concerns first and ensure constant contact with communities through effective public participation platforms.
- b) Create conditions for decent living by consistently delivering municipal services to the right quality and standard. This includes planning for and delivery of infrastructure and amenities, maintenance and

upkeep, including the budgeting to do this. Ensure no failures in services and where there are, restore services with urgency.

- c) Be well governed and demonstrate good governance and cut wastage, spend public funds prudently, hire competent staff, ensure transparency and accountability.
- d) Ensure sound financial management and accounting, and prudently manage resources so as to sustainable deliver services and bring development to communities.
- e) Build and maintain sound institutional and administrative capabilities, administered and managed by dedicated and skilled personnel at all levels".

These five pillars have 35 indicators that need to be achieved by municipalities depending on the category of each municipality. Going forward, Harry Gwala will be implementing these indicators to ensure efficient and effective service delivery to the communities that we are serving.

We trust that the financial year 2019/2020 will be the year of success and great achievement for the entire Harry Gwala community.

We have received a mandate from you to lead a District Municipality that has thus far, been under good stewardship, with capable executives- working together with a dedicated team from the Municipal Manager's Office, Various Heads of Departments and the entire labour force of this municipality.

There are crucial priorities that we hope to focus on during our term of office namely, affirming the fundamental and legislative mandate of the municipality, enhancing the Municipal capacity to deliver on mandatory and basic services and deliver on targets that we set for ourselves.

Going the extra mile to serve, educate, empower and uplift the livelihood of our people is also what we intend continuing doing as well in 2019/2020 financial year.

More so, we must ensure at all times, that the Municipal vision and strategic direction is aligned to national plans such as the National Development Plan as well as other growth and development targets set out in the Integrated Development Plan (IDP).

Abiding by these statutory imperatives, will not necessarily increase undesirable red tape processes, but will rather, be aimed at enhancing the following:

- -Professionalization of the culture, reputation and manner in which the municipality does business with.
- -Encouraging a code of good governance and ethical practice.
- -Strengthening an environment that creates synergy with the administrative duties and those of a political nature.

Before I conclude, I would like to convey humble words of appreciations to the Municipal Manager, senior management team, IDP unit, budget unit and all the officials that have made it possible for us to be where we are today. Your tireless efforts will never go unnoticed. I know that sometimes in the course of doing our work we can be a bit pushy and offend one another.

But be rest assured that there will never be a deliberate intention to humiliate or offend anyone but as common course in the course doing our work we may be sometimes a bit pushy and harsher because we want things done.

To all other stakeholders we have seen the spirit of cooperative governance in action and you complemented our work in many ways that we can imagine and for that we will always be grateful to you.

A special thanks to my fellow councillors, your commitment to serve and the robust oversight that you have provided over the years and during this financial year is remarkable. You have raised the bar with debates, very frank and sometimes a bit offensive but that has enriched our work dearly.

I am determined that due to the collective leadership and team work we will continue to do our work smoothly and for that I am grateful to all of you colleagues.

I thank you

Her Worship the Acting District Mayor: Cllr. N.H. Maphasa Duma

Introduction

Performance management is a requirement for all local government in South Africa. It is primarily a mechanism to monitor, review and improve implementation of its IDP. The performance management system monitors actual performance against set targets and serves as a contractual obligations between the municipality and the community. Performance management system was established to measure performance of the municipality. The most valuable reason for measuring performance is that what gets measured gets done.

The performance of a municipality is integrally linked to that of staff. If the employees do not perform the municipality will fail. The relationship between the municipal performance and employees starts from the planning stage which is the first phase of the municipal performance management system (PMS). The key output is development of the IDP which is utilized to plan future developments in the municipal area.

The IDP has a lifespan of 5 years which is directly linked to the term of office for councillors. The IDP is broken down into short term goal achievable in one year. The implementation of the IDP is given effect through the Service Delivery Budget and Implementation Plan (SDBIP).

SDBIP is the implementation tool used to align the budget and the IDP. It is the second phase of municipal performance system. The SDBIP is the management and implementation tool which sets in-year targets and link each service delivery output to the budget of the municipality to ensure that key objectives and priorities are budgeted for and achieved. Working towards achieving the long term goal, Harry Gwala district municipality as a water service authority focuses on provision of clean drinkable water and dignified sanitation in the form of VIP toilets and water borne sewer system which is output oriented. The needs identified during the IDP roadshows form base of the SDBIP. Figure 1 illustrates the results chain framework.

2. Legislative Framework

2.1. The White Paper on Local Government (1998)

The white paper of the Local Government (1998) acknowledges that involving the communities in developing some municipal Key performance indicators increases the accountability of the municipality. Some communities may prioritise the amount of time it takes a municipality to answer a query, others will prioritise the cleanliness of an area or the provision of water to a certain number of households, whatever the priorities, by involving communities in setting key performance indicators and reporting back to communities on performance, accountability is increased and public trust in the local government system is enhanced.

2.2. The Municipal Systems (Act 32, 2000)

The Municipal Systems Act (2000) enforces the idea of local government PMS and requires all municipalities to:

- Develop a performance management system
- Set targets, monitor and review performance based on indicators linked to their IDP
- Publish an annual report on performance for the councillors, staff, public and others spheres of government.
- Incorporate and report on a set of general indicators prescribed nationally by the minister responsible for local government.
- Conduct an internal audit on performance before tabling the report
- Involve the community when setting indicators and targets and reviewing municipal performance.

2.3. Municipal Performance Management Regulations (2006)

The Municipal Performance Management Regulations set out how performance of managers directly accountable to the municipal manager will be uniformly monitored and improved. The regulations address both the employee contract and the performance agreements of the municipal manager and managers directly accountable to the municipal manager. The regulations provide a guideline on how the employee contract and the performance agreement should contain. It outlines the purpose of the agreement as to:

- Specify objectives and targets defined and agreed with the employee and to communicate
 with the employee the expectations of the employer and accountability in aligning the
 Integrated Development Plan (IDP), Service Delivery budget and Implementation Plan (SDBIP)
 and the Budget of the municipality.
- Specify accountability as set out in a performance plan, which forms an annexure to the performance agreement.
- Monitor and measure performance against set targets

2.4. Municipal Finance Management Act (2003)

The Municipal Finance Management Act states requirements for a municipality to include its municipal performance report with its financial statements and other requirements in constituting its annual report. This must be dealt with by the municipal council within 9 months of the end of the municipal financial year.

Long Term Objective

KEY PERFORMANCE AREA	LONG TERM OBJECTIVE
Basic Services	To ensure the provision of infrastructure, water and sanitation services in a sustainable manner
Social and Local Economic Development	To promote local economic development
	To promote agricultural and tourism activities
	To create a conducive environment for business opportunities for both local and foreign investors
	To uplift the economic well -being of Harry Gwala residence access to the environment that is not harmful to their health being.
	To have a disaster management that prevents, mitigate and respond effectively immediately after a disaster has been declared
Municipal Institutional Transformation	To transform our institution to cater for the previously marginalized.
Good Governance and Public Participation	To promote and enhance community participation in the affairs of the municipality
Municipal Financial Viability	To provide reasonable assurance that is sound and sustainable management of the fiscal and financial affairs of the district is accomplished.

3. SWOT ANALYSIS

STRENGHTS	WEAKNESSES
1. Young and dynamic staff compliments that is	1. Lack of rare skills i.e engineers
willing to learn and grow	2. Inexperienced staff compliment
2. A conducive working environment where	3. limited funding to effectively deal with backlog
potential can be untapped	4. Rural based municipality

3. Accessibility of senior management4. Strong administrative leadership	
OPPORTUNITIES	THREATS
1.Easy access to major cities	1. Disasters
2. large pool of labour	2. Unskilled labour
3. World class tourism destination	3. poor infrastructure
4. stable political environment	4. Brain drain to major cities
	5. Theft(stock theft)
	6. Crime

Vision

By 2030 Harry Gwala will be a leading water services provider in the KZN province with its communities benefitting from a vibrant agriculture and tourism sector.

Mission Statement

Working together with its communities and stakeholders Harry Gwala District Municipality will ensure the provision of clean, drinkable uninterrupted water services and proper sanitation facilities and strive to improve its agriculture and tourism sector to enhance human dignity.

Core Values

- 1. Transparency
- 2. Accountability
- 3. Consultation Commitment
- 4. Honesty

Principles Governing PMS

8.1. Simplicity

The system must be a simple user- friendly system that enables the municipality to operate it within its existing capacity of its financial, human resources and information management system.

8.2. Political driven

Legislation clearly tasks the municipal council and the mayor as the owners of the performance management system. The Executive **MUST** drive both the implementation and improvement of the system. Legislation allows for the delegation of responsibility or aspects of it to the municipal manager or other appropriate structure as the executive may deem fit.

8.3. Incremental implementation

It is important that while a holistic performance management system is being developed, the municipality should adopt a phased approach to implementation, dependent on the existing capacity and resources within the municipality.

It is also important to note that municipal performance management is a new approach to local government functioning and therefore requires adequate time to be given to the organisation's process to change. The performance management system will not be perfect from the start it should be constantly improved based on its workability.

8.4. Transparency and accountability

Members of the organisation whose performance will be monitored and measured must ensure that the process of managing performance is inclusive open and transparent. This can only be achieved by taking effective participation in the design and implementation of the system within the municipality.

Again, the process must involve and empower communities so that they are able to understand how the municipality and its departments are run, how resources are spent, and who is in charge of particular services. Similarly, all information on the performance of the departments should be available for other managers, employees, public and specific interest group.

8.5. Integration

The performance management system should be integrated into other management processes in the municipality, such that it becomes a tool for more efficient and effective management rather than an additional reporting burden. It should be seen as a central tool to the ongoing management functions.

8.6. Objectivity

Performance management must be founded on objectivity and credibility. Both the processes of managing performance and the information on which it relies need to be objective and credible. Sources of data for measuring indicators should be scrutinized to enhance credibility of information and therefore objective decisions-making.

9. Why do we need Service Delivery Budget and Implementation Plan (SDBIP)

The IDP which is the planning tool for the municipality have a lifespan of 5 years which is then broken down into short term goals that can be achieved in 1 year. The SDBIP which is the implementation tool is developed to implement the IDP. It is used to align the budget to the IDP. The focus of the SDBIP is

on both financial and no-financial measurable performance objectives. It links each service delivery outputs to the budget of the municipality. The SDBIP provides a comprehensive picture of the performance of each department within the municipality. It consists of objectives, strategies, indicators and targets.

Figure 1: Results chain framework

OUTPUTS – What we produce or deliver?

(The final product, goods and services produced)

ACTIVITIES - What we do?

(The actions or process that uses a range of inputs to produce the desired outputs)

INPUTS – What we use to do work?

(The resources we use to produce the product e.g financial resources and human resources)

10. 2019/2020 OBJECTIVES (OUTPUTS)

Objectives state clearly the intention of the municipality, what it intends to produce in order to achieve its strategic output. The organisational objectives are SMART (specific, measurable, attainable, relevant and time-bound) and performance targets set are achievable. The table below illustrate the 2019/2020 objectives.

OBJECTIVES 2019/2020

To Improve coverage, quality, efficiency and sustainability of water in all urban and rural communities

To improve coverage, quality, efficiency and sustainability of and sanitation in all urban and rural communities

To improve coverage, quality, efficiency and sustainability of and sanitation in all urban and rural communities

To increase work opportunities and income support to poor and unemployed people through the labour intensive delivery of public, community asset and services.

To ensure that WSA is fully complying to its mandate as set by the Department of water and sanitation

To ensure that water and waste water systems meet the relevant standard set by the Department of Water and Sanitation

To repair all water and sanitation schemes as per complaints received

To showcase and market the district

To promote human values by fighting poverty, crime, dieseases, depravation and social ills, ensuring moral regeneration by working together through effective partnerships

To provide reasonable assurance that the municipality adheres to applicable laws and regulations.

To ensure that the municipality actually spend the percentage of a municipality's budget on implementing its Workplace Skills Plan

To implement the Integrated Health and Wellness strategy to ensure a healthy, motivated and dedicated workforce

To capacitate Supply Chain Management officials and Bid Committee members

To implement the Integrated Health and Wellness strategy to ensure a healthy, motivated and dedicated workforce

To provide secure ICT infrastructure which delivers appropriate levels of data confidentiality and integrity

OBJECTIVES 2019/2020 To provide for an integrated and coordinated disaster management that focuses on preventing /reducing the risk of disasters To ensure effective communication internally and externally To ensure improved revenue collection To ensure updated and reliable indigent debtor information To ensure updated and reliable debtor information To ensure compliance with the MFMA and improve budgeting reporting processes To ensure prepare monthly financial statements To ensure updated fixed asset register To gazette Municipal Health Services tariffs To ensure the implementation Municipal Health programme based on the National Norms and Standards To implement the Youth Development plan To empower and promote healthy living, awareness and moral regeneration amongst the vulnerable and communities To foster social cohesion within the district To identify suitable candidates through hosting build up sporting activities so as to participate in Provincial tournaments To promote the horse riding within the district To promote healthy life style within the district

To improve Geographical Information System (GIS) data and operational systems

To develop the Harry Gwala District Municipality strategic planning and reporting

documents in consultation with relevant stakeholders

11. PERFORMANCE INDICATORS AND TARGETS AND BASELINE

A set of performance indicators were identify in order to track the ongoing performance of the organisation. The indicators reflect equity and the value for money in the use of resources. They are related to outputs which will assists in achieving the organisational strategic outcome. The key stake holders are consulted to identify the key performance indicators. The key performance indicators are aligned to the national outcome. The present baseline information which is recorded prior to the planning period is stated clear in numbers in respect of each project objective and indicator. The SMART targets are set relating to the budget year of the MTEF. The table below illustrate the targets, indicators and baseline set in the organisational Score card.

Key Performance Indicators and Baseline

KEY PERFORMANCE INDICATORS							
Percentage of households with access to basic sanitation							
Number of households with access to basic sanitation							
Number of households connected to sewer water borne for the first time							
Number of jobs created through EPWP and capital projects							
Date in which water services By-laws were reviewed and gazetted							
Number of water samples taken for analysis							
Percentage of reported complaints and responded							
Turnaround time to respond to reported complaints							
Number of schemes maintained							
Number of service delivery marketing activities conducted							
Number of municipal events held							
Number of audit committee meetings held							
Date in which the Fraud prevention was established							
Number of meetings held							
Date in which risk assessments were conducted							
Number of people trained							

Percentage of budget spent on Workplace Skills plan
Number of officials trained on SCM
Number of Health and wellness activities implemented
Date in which WSP was submitted to LGSETA
Number of programmes implemented from the Employment Equity Plan
Number of software licenses renewed
Number Newsletters developed and published
KEY PERFORMANCE INDICATORS
Number of customers on database billed
Number of monthly reports on updated consumer data submitted to MANCO
Date in which the 2019/2020 final budget was approved
Date in which AFS were submitted to Auditor General
Date in which fixed asset register was updated
Turnaround time to respond to the reported disaster incidents
Date in which Municipal Health services tariffs were gazetted
Number of training conducted on Food handling and inspection
Number of water samples submitted to Laboratory for analysis
Date in which Sampling Equipment was procured
Date in which Sampling Equipment was procured
Number of Youth programmes implemented from the Youth Development Plan
Number of Special programmes conducted
Date in which the cultural festival was held
Date in which HGDM hosted Mayoral Games
Date in which HGDM Participated in Indigenous games

Date in which HGDM hosted Harry Gwala Marathon

Date in which HGDM participated in Dundee July

Date in which HGDM hosted Summer Cup

Date in which the Harry Gwala marathon was hosted

Date in which the operating licences renewed and Geographical Information System(GIS) data updated

Number of IDP roadshows conducted

Number of strategic documents produces

12. Risk Management

The risk management implementation plan for the Harry Gwala District Municipality was prepared to give effect to the implementation of the risk management policy and strategy and sets out all risk management activities planned for the 2019/2020 fiscal year. The table below illustrate the risks that were identified and the mitigation plans to ensure that the risks to not hinder the realisation of the strategic objectives.

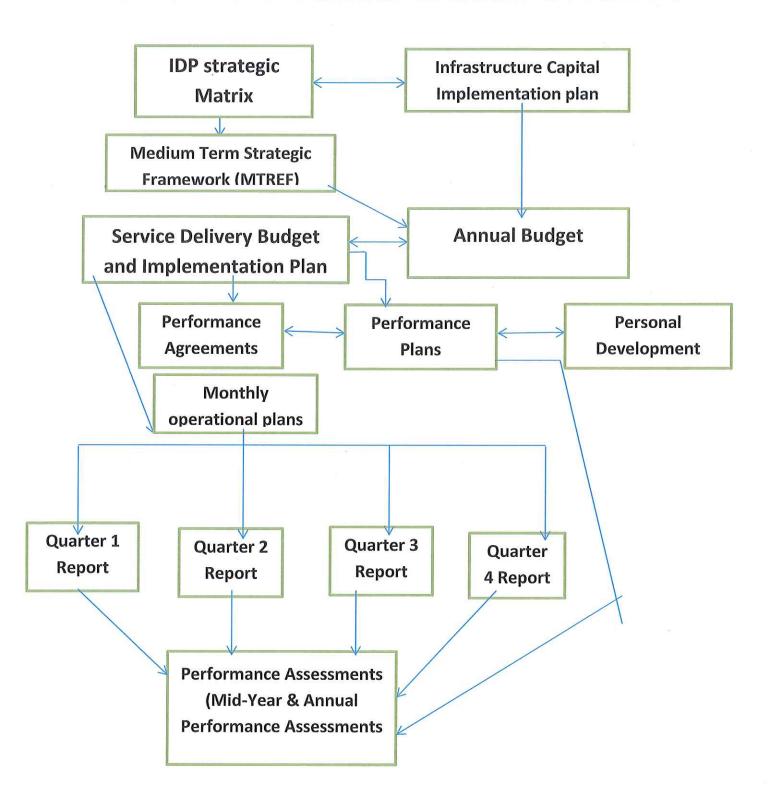

382		Key	Risk Identified	new			Inheren	risk rating		entrisk osure		Contro	l ellectiv		Б	dual Risk posure	Risk response	Risk Owner

13. Process of the Service Delivery Budget and Implementation Plan (SDBIP)

The SDBIP process plan is developed with the IDP process plan and is tabled to council for adoption. The draft SDBIP and the final SDBIP is submitted to the mayor not later than 28 days after the adoption of the budget and to the Provincial and National Treasury not later than 10 days after the adoption of the budget. The SDBIP is publicised through the local newspapers and the website of the municipality.

13.1. Planning, budgeting and reporting

This section will give a brief overview of the documents that the municipality is mandated to produce in relation to planning, budgeting, implementation, reporting, and monitoring. All these documents are tabled in relevant committees. Above all, published on the municipal website for public consumption. For the planning purpose the IDP is developed which is a five year plan. IDP process plan is table by the mayor as well as the budget timetable to Council by 31 August for approval (10 months before the beginning of the next budget year). The schedule of key deadlines indicates the processes relative to the review of the IDP as well as the preparation of the medium term revenue and expenditure framework (MTREF) budget and the revision of the annual budget. These target dates follow the prescriptions of the Municipal Finance Management Act as well as the guidelines set by National Treasury. Strategic planning session is convened in September/October with senior managers to determine the IDP priorities which will form the basis for the preparation of the MTREF budget. By the 31st March, the Mayor tables the draft IDP and MTREF budget to council (90 days before the beginning of the new budget year) together with the draft resolutions and budget related policies. The Mayor approves the Service Delivery and Budget Implementation Plan (SDBIP) not later than 28 days after the approval of the Budget by Council. The SDBIP is submitted to Provincial and National Treasury not later 10 days after it has been approved by council.

13.2. Public Consultation

The public is consulted through IDP and Budget road shows. An extensive consultation is held with the ward committee members and the ward councillors to deliberate on the Key performance indicators.

13.3.1. Implementation

SDBIP is the actual implementation of the Integrated Development plan (IDP) which is done over a single year cycle. It is known as a management tool used to monitor performance. It focuses on both financial and non-financial measurable performance objectives. SDBIP is essentially an implementation tool to ensure alignment of budget to the IDP. To measure performance, targets are set for each indicator. To achieve better service delivery the municipality has the responsibility to ensure responsible spending, given the nature of public funds. The results must be linked to budget expenditure to ensure value for money. Monthly performance and budget reports are prepared as per Section 71 of the MFMA and Section 41 (1) (e) of the Systems Act, Section 166 (2) (a) (v) and (vii) of the Municipal Management Finance Act (MFMA) and Regulation 7 of Municipal Planning and Performance Management Regulations. The SDBIP is revised once during the budget adjustment and amendments are done where necessary and then tabled to council.

13.3.2. Monitoring and Reporting

Monitoring is conducted to collect, analyse and report performance data. It provides continuous information on whether progress has been made towards achieving the results (inputs, activities and outputs). It assists to identify the strengths and weaknesses in each project. The information collected during reporting enhance learning and improves decision —making. Monthly operational reports are prepared and discussed in a MANCO and in the Portfolio committees to continuously track performance against what was planned. In order to comply with regulation 28 of the Local Government: Municipal Performance Regulations for Municipal Managers and Managers Directly accountable to the Municipal manager, the quarterly reports are prepared and tabled to the Executive committee, Performance Audit Committee and Council. Sections 121 and 127 of the MFMA, as read with Section 46 of the Systems Act and Section 6 of the Systems Amendment the municipality must prepare the Annual performance report(APR) and clearly state the IDP objectives, planned targets, reasons and corrective measures provided where targets were not met. The APR forms part of the annual report. The Annual report is tabled to Council by 31 January. The draft and approved document is published by 31 March each year. It is submitted to MPAC, Council, Audit Committee, Auditor-General, Auditor-General, National Treasury and Provincial Treasury. Figure 2, illustrates the schedule for performance review.

15. Performance Evaluation Committee

Performance Evaluation committee was established as per the regulation 27 of Local Government: Municipal Performance Regulations for Municipal Manager and Managers directly accountable to Municipal Manager, 2006. The performance evaluation panel for the purpose of the assessing the Municipal manager constitutes the following persons:

- 1. The Mayor
- 2. Chairperson of the Performance Audit committee (PAC) or Chairperson of the Audit Committee in the absence of the PAC.
- 3. Member of the Executive committee
- 4. Mayor from another municipality
- 5. Member of the ward committee as nominated by the Mayor.

For the purpose of evaluating performance of managers directly accountable to the municipal manager, the panel constitutes the following persons:

- 1. Municipal Manager
- 2. Chairperson of the Performance Audit committee (PAC) or Chairperson of the Audit Committee in the absence of the PAC.
- 3. Member of the Executive committee
- 4. Municipal manager from another municipality

As stipulated in Section 72 of the MFMA, the Mid-Year assessment report is prepared and submitted to the mayor, Provincial and National Treasury by the 25th of January of each financial year.

16. Financial Management Perspective

16.1. BUDGETING PRINCIPLES

The municipality should not budget for a deficit and should ensure that revenue projections in the budget are realistic taking into account actual collection levels and equitable share. Expenses may only be incurred in terms of the approved annual budget (or adjustments budget) and within the limits of the amounts appropriated for each vote in the approved budget. Harry Gwala district Municipality has prepared a three-year budget (medium term revenue and expenditure framework (MTREF)) and will be reviewed annually and approved by Council. The MTREF budget must at all times be within the framework of the Municipal Integrated Development Plan.

1. REVENUE

The total budget amounts to R744, 7m for parent municipality. This income is derived mainly from Government Grants & Subsidies (i.e. MIG, WSIG, RBIG & Equitable Share). This has been allocated as follows to the operational and capital budget;

Table1: Revenue

TOTAL	R 744, 7m	R 747, 9m

2019/2020 Service Delivery Budget and Implementation Plan

The capital budget is largely attributable to addressing the water & sanitation backlogs in the Harry Gwala District Municipality.

Other internally funded capital projects include the Installation of water meters, Staff Compound, Vehicles and other assets such as office equipment, Server upgrade, Computers etc.

OPERATIONS BUDGET

The operating expenditure budget for the 2019/20 budget is R462m.

Chart 8: 2019-20 MTREF Operational Budget per Vote

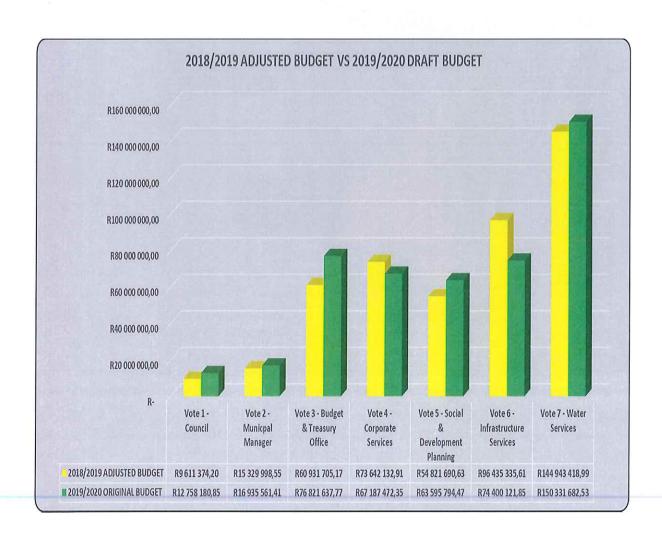

Chart 3 above presents a comparison between the 2018/2019 adjusted operational budget and the 2019/20 draft operational budget. The detailed line items providing operational projects as well as

operational expenditure have been inserted in the table below. The comparison indicates an increase in operational budget by only 1% or R6, 3m in monetary value.
